

Tri-City Fire Dept.

07-12-2011

To whom it may concern;

I have complained to the code enforcement about the house between 5613 and 5627 Central Drive. It is a eye sore and it should be condemned. The roof has fallen in and the weeds are to the point that I believe they are a fire hazard. Mrs Lopez is afraid that the weeds around the house will catch fire and burn her house down and the one next to it on the other side. I am afraid that they will wind up like the ones on the other street. I would hope that Tri-City Fire Dept. Would check on who's suppose to be keeping the up keep of the house. I would hope that Tri-City Fire Dept. would cite the property owner and make them clean it up.
